

Fully loaded with CPT, ICD-9 and ICD-10 codes.
No programming required.

ANSWERS[®]

MONITOR, DETECT, ANALYZE, AND PREVENT FRAUD, WASTE AND ABUSE

The Answers[®] suite of applications combines monitoring, data mining, and automated outlier indicators within medical records and claims, to create a multifaceted surveillance and fraud detection system.

Answers provides powerful tools to health care agencies, insurers, analysts, and fraud investigation units in the form of a user-friendly dashboard, interactive reporting system, and red flag alert system.

SOFTWARE FEATURES AND BENEFITS	ANSWERS MC	ANSWERS CARS
Displays a summary of data and data shifts.		●
